Installing a New Geothermal Heat Pump? Meet IMU's Efficiency Standards and Receive a Rebate!

Indianola Municipal Utilities Geothermal Heat Pump Rebate Program

Install a qualifying energy efficient geothermal heat pump in your home or business and Indianola Municipal Utilities will apply a credit to your city utility account! The unit must have a 14 SEER (Seasonal Energy Efficiency Ratio) or higher.

In addition, All Electric Heat customers who install heat pumps may be eligible for a \$0.30 per square foot rebate on attic insulation installed to a minimum R-40 value. Homes must be at least 10 years old with existing insulation levels less than or equal to an R-24.

Rebate Amount for Qualifying Units:

Utility Account Credit; \$300 per ton up to a \$1,000 maximum; 5 unit maximum per customer per *program year.

Qualifications:

- Geothermal unit must be installed in a residence/business served by IMU electricity.
- Geothermal heat pump must have a 14 SEER or higher.
- Geothermal heat pump must be properly sized for the home.
- *The IMU program year begins July 1 and ends on June 30.

Application Requirements:

- Completed and signed rebate form.
- Itemized invoice providing the purchase date, make, model and SEER of the unit.
- Application and invoice *must be* received within six months of purchase date.
