

Indianola Municipal Utilities Renewable Energy Credit Program

IMU's Renewable Energy Credit (REC) Program is a simple and convenient way to support the development and use of renewable energy resources. By signing this form, you are authorizing IMU to add an additional 1¢/kwh to your regular monthly bill. The program is open to all customer classes and offers various levels of participation.

REC's may be purchased at 1¢ per kwh in addition to a customers regular electric bill. For example, if a customer chooses to purchase a 100 kwh block, they will pay \$1.00 per month in addition to their regular bill. If a customer chooses to purchase a 200 kwh block, they will pay \$2.00 per month in addition to their regular bill. Customers who wish to participate at higher kwh blocks should designate that as "other" when authorizing the additional charge. Or, customers may authorize a percentage of their total annual consumption.

I would like to participate at the following level:

- ☐ 100 kwh block (\$1.00/month)
- ☐ 200 kwh block (\$2.00/month)
- ☐ 300 kwh block (\$3.00/month)
- ☐ Other; _____ kwh block
- ☐ Other; _____ % of annual kwh consumption

Name: _____

Address: _____

Signature: _____
